## PRODUCER

Riesling and Pinot Noir are the stars of our winery. With these grape varieties we show the specific characteristics of world-famous terroirs like HÖLLENBERG, BERG SCHLOSSBERG, BERG ROTTLAND, BERG ROSENECK, BAIKEN and MARCOBRUNN with highest quality standards. With a philosophy of ecological cultivation we uncover the deeply hidden secrets of the vineyards. This potential can be fully realised in the cellar.

## VITICULTURE + VINIFICATION

The Rheingau is one of the most distinguished wine regions of the world. Moving from east to west, the fairly flat, dimpled landscape evolves into progressively steep slopes. Mild winters and warm summers; the vineyards are protected from cold winds by the forest-capped Taunus Hills and benefit from the heat-reflecting surface of the Rhine. The microclimate in Assmanshausen guarantees a bud break up to 4 weeks earlier than in other vineyard locations, resulting in a longer vegetation period. The grapevines use this extra time to gather more flavor content. The slate soils and the perfect south and southwest orientation of the extremely steep slopes augment the degree of warmth in the vineyards dramatically. We bring these advantages together with our Pinot Noirs, which yield intense, spicy and yet elegant red wines. Handpicked | Selected grapes | Cold maceration | Small batch open top fermenters | Basket press | Natural settling | Lees contact Traditional oak barrel | Barriques Malolactic is used to soften acidity, round the palate and balance the wine.

## TASTING NOTE

A wine that deserves decanting and time to breathe to unlock it's full potential; mineral notes and fine red berry-fruit. Textually, the wine is quite creamy on attack, fine-grained tannin, ripe acidity, medium-weight palate fruit, goes a little to width. (from the Falstaff Wine Guide)
