PRODUCER

Riesling and Pinot Noir are the stars of our winery. With these grape varieties we show the specific characteristics of world-famous terroirs like HÖLLENBERG, BERG SCHLOSSBERG, BERG ROTTLAND, BERG ROSENECK, BAIKEN and MARCOBRUNN with highest quality standards. With a philosophy of ecological cultivation we uncover the deeply hidden secrets of the vineyards. This potential can be fully realised in the cellar.

VITICULTURE + VINIFICATION

The Rheingau is one of the most distinguished wine regions of the world. Moving from east to west, the fairly flat, dimpled landscape evolves into progressively steep slopes. Mild winters and warm summers; the vineyards are protected from cold winds by the forest-capped Taunus Hills and benefit from the heat-reflecting surface of the Rhine. R3 represents the Rheingau. It reflects the geological structure of the area as well as the microclimate of our best vineyards in the towns of Oestrich, Winkel and Rüdesheim. R3 is a composition of grapes coming from all types of clay, loess, quartzite and slate soils. Natural fermentation in stainless steel tanks. No malolactic is used in order to retain freshness.

TASTING NOTE

Riesling. Reloaded. Revolution. No Riesling, no fun. This wine is an explosion of fruit on the palate; lime pickle with ripe apricot and elder flower character with the freshness you look for with Riesling.
